

## HARMONY

With our music browser Harmony movies and music are combined in a functional and harmonic design.

With Harmony's huge capacity and harmonic expression the focus is now on music and movies.

Harmony can be used as a stand-alone product as well as in a series.

The adjustable bottom makes it possible to place movies and music next to each other in the same height.

Harmony is available in two different models with two or four drawers.

The drawers can be lockable and therefore used as archive.

The open top browser has a capacity of 1,000 to 1,100 CD-bags and each drawer can contain approximately 450 CD-bags.

Dimensions: H103.5 x W106.0 x D90.1 cm

Harmony comes in black or white as standard colour.
