60/30 EXPO

DISPLAY SHELVING

DESIGN NIKLAS DAHLMAN

Our new display shelving offer a host of new opportunities for display. The product design attracts users by focusing on book front covers and creating themes by combining books with objects to enhance and inspire.

60/30 Expo is based on our 60/30 Steel Shelving System and offers an open, transparent and floating design expression. It is ideal for displaying book covers, thus attracting library users and encouraging "quick pick".

The design ensures easy navigation in the library and is optimal for creating themes using books and objects.

60/30 Expo is made of steel uprights, painted wooden shelves and acrylic display shelves. The steel uprights and painted wooden shelves are available in all our standard colours. Choose between curved or straight shelving corners.

60/30 Expo is available in heights 122 cm and 152 cm with depth 30 cm and width 90 cm.

It is available as both single- and double-sided and as starter- and add-on bay (maximum 3 bays).
